HOMEOWNER'S ELECTRIC AFFIDAVIT

I, _____, understand that doing my own electrical wiring and/or installations in my personal residence is an exception to the 2002 National Electrical Code.

To be granted this exception I, _____, understand that only I can secure and sign for this permit, install all electrical wiring and/or installations myself without assistance. This installation is subject to all inspections of the local authority as prescribed by the 2002 National Electrical Code, and that I will be the sole resident and owner of this structure at _____ in the City of Jeffersonville.

I also agree that if I sell this residence, I am responsible for this electrical wiring and/or installations just as a licensed electrician would be.

Signed _____
