HOMEOWNER'S HVAC AFFIDAVIT

I, _____, understand that doing my own HVAC installations in my personal residence is an exception to the 1996 International Mechanical Code.

To be granted this exception I, _____, understand that only I can secure and sign for this permit, install all HVAC equipment myself without assistance. This installation is subject to all inspections of the local authority as prescribed by the 1996 International Mechanical Code, and that I will be the sole resident and owner of this structure at _____ in the City of Jeffersonville.

I also agree that if I sell this residence, I am responsible for this HVAC installation just as a licensed HVAC contractor would be.
